8:45 **Keynote Address**  
**Ken Malloy**, *President*  
**Center for Advancement of Energy**

9:30 **Electric Restructuring:**  
**Wrong/ What Wo**  

- Lessons from California and elsew
- Experience in the Midwest

The recent highly publicized electricity shortages in California and substantial price increases for natural gas have raised concerns about the ability of market oriented energy industries to deliver reliable energy at affordable prices. The experience in California and elsewhere can provide useful lessons concerning the perils of regulatory reform. This workshop examines the lessons to be learned from this experience and explores how these lessons can be applied in Illinois and the Midwest.

The Institute for Regulatory Policy Studies, residing in the Department of Economics at Illinois State University, was founded to foster education, communication, and research on regulatory policy issues of critical importance to consumers, regulators, and utilities. The Institute pursues these goals by sponsoring conferences and workshops, funding support for students, and conducting research. Further information about the Institute and updates to

Registrations are accepted by mail, f <http://www.irps.ilstu.edu>. Payment must be made to the workshop. Early registration is ad limited. The registration fee covers atten shop sessions, continental breakfast, lur and workshop materials. The registrati:
